Jan 17, 1988

Dear Children all.

Believe me as we look Out the Window we know it is Winter time here.

However we have enjoyed the Winter so far. I have kept quite well no Colds or Sore throat Ike is having Sore throat so is Janie Both have trouble with their backs. Their Dr Said get off that water bed and so they have so hope they will be better

The kids Charlie, Chantel + Erich have had their bouts with Sore throats + Colds but not so it slowed them down - any.

We are living in a good Ward here they look after one another more than most Wards I have lived in.

They are a noisy bunch so this Month has been stressing reverence in the Chapel and I must Say in the Chapel its Self in Sacrement meeting at least They have improved 100%

Martha + David came to visit Martha's kids for Christmas and they stayed with us a couple nights both coming up and going back to Mesa

Ammon + Mary have bought a house here they realy like it here They got a good deal on the house

The house Ike wanted to buy in Manti has not cleared the title so I dont know if Ike will take it or not it would be Mar. before we would know if the title can be or will be cleared. Ikes offer on the place Was up 17 Jan. So he is debating if he should look for another one — there were several we all liked.

I am well and as the Saying goes. — In Good Spirit

Hope and pray every thing is going well with You + Yours

Love mom.

Dear Marion & All.

Here it is the 25 Jan. time is going wont be long until Glenn & Virginia will be home

We have had some pretty good snow storms most of the roads how ever are bare Utah never lets the snow stay on the roads very long.

I am taking the Weather here just fine while Ike, Janie, Erich & Shante are all having a bad time with colds and sore throats even Ike.

The house didn't clear title the 17 of Jan. Sister Wisdon is mad at her Real estate agent she figured he should of cleared it for her and there was no way he could do it (that) she had to do. So Ike isn't obligated to take that house any more but he can re-negotiate terms with her if he so desires and she very much wants him to.

However Ike is going to look around some more before he settles for any thing

Charles is still here working for or with Ike he is thinking of going back to school and learn a trade in

electronics he has checked and that would be a good trade for him, he just isnt cut out to be a good carpet installer, nor is Erich.

Erich has been off his drugs since he has lived with Ike but he dont seem to want to quite smoking, nor does Charles' they just stop and start again which indicates they just dont want to quit.

Jane is in bed with her cold yesterday + to-day the home teachers came and gave her a blessing and she feels better to-day. but a long ways from being out of the woods so to speak.

we had Ward conference yesterday and Stake conference is coming up 14 feb. this Mo. in our ward they have been working on being more reverent in the chapel. they have improved a lot - you know I cant understand the loud laughter and snide remarks one hears now days in our adult class rooms. one day in our Sunday school class some one said something the class considered very funny one sister so for got her self she started clapping her hands - so you see they needed to be taught to be reverent. Hope all is well

love mom
